Highlights

1.With 2.4GHz comminication technology, can be compatible with FUTABA S-FHSS
2.3D 6G mode makes flight more stable, easy for beginner
3.High efficient brushless motor provides more dynamic flight
4.Detachable wing structure with reinforced carbon rod
5.Small and big rudder setting, easy to roll, spiral and do other actions
6.Equipped with high discharge rate battery
7.Li Polymer special balance charger and adapter

Specifications

Type: RC Helicopters
Material: EPS
Mode: Mode 2 (Left Hand Throttle)
Features: Radio Control
Remote Control: 2.4GHz Wireless Remote Control,Built-in LCD Display
Motor: High performance 1404 brushless motor
Flying Time: Approx 10min
Battery: 7.4V 300mAh 25C li-po
Charging Time: 30-60min
Control Distance: 300 meters
Rotor Diamater: 25cm
Length: 23.3cm
Height: 7.7cm
Flying Weight: 90g
Transmitter Power: 6 x 1.5V AA battery (not included)
Helicopter Power: Built-in rechargeable battery
Package weight: 1.750 kg
Functions: Forward/backward,Sideward flight,Turn left/right,Up/down
Built-in Gyro: Yes

Package Content

1* Color box packaging
1* machine
1*landing gear
1*remote control
1*manual
1*batteries
1*charger
1*spare blades
1*USB charging cable
