

Highlights

1. With 2.4GHz communication technology, can be compatible with FUTABA S-FHSS
2. 3D 6G mode makes flight more stable, easy for beginner
3. High efficient brushless motor provides more dynamic flight
4. Detachable wing structure with reinforced carbon rod
5. Small and big rudder setting, easy to roll, spiral and do other actions
6. Equipped with high discharge rate battery
7. Li Polymer special balance charger and adapter

Specifications

Type: [RC Helicopters](#)

Material: EPS

Mode: Mode 2 (Left Hand Throttle)

Features: Radio Control

Remote Control: 2.4GHz Wireless Remote Control, Built-in LCD Display

Motor: High performance 1404 brushless motor

Flying Time: Approx 10min

Battery: 7.4V 300mAh 25C li-po

Charging Time: 30-60min

Control Distance: 300 meters

Rotor Diameter: 25cm

Length: 23.3cm

Height: 7.7cm

Flying Weight: 90g

Transmitter Power: 6 x 1.5V AA battery (not included)

Helicopter Power: Built-in rechargeable battery

Package weight: 1.750 kg

Functions: Forward/backward, Sideward flight, Turn left/right, Up/down

Built-in Gyro: Yes

Package Content

- 1* Color box packaging
- 1* machine
- 1* landing gear
- 1* remote control
- 1* manual
- 1* batteries
- 1* charger
- 1* spare blades
- 1* USB charging cable
