

Highlights

2.4G Transmission provide stable control distance
4 Channel Remote Control
Built in Gyro system
Flying forward, backward, flying right / left side
360 Rotate
Flying UP / Down / Turn Left / Right
4 Main propeller

Specifications

(1) Function: Up/Down,Forward/Backward ,Left/Right,Leftward flight/Rightward flight,Veer,Hovering
(2) Power Battery : 3.7V 250mAh Li-poly
(3)Controller Battery : 4 x1.5V "AA" batteries (Not included)
(4) Charge time : Approximated 60 Mins
(5)Charge way : USB & Charge box
(6) Use time : Approximated 5-8 Mins
(7) Control distance : Approx

mate

d 20 M

(8) Certificates: LED,FCC,EMC,EN62115,RTTE,EN71,ROHS,ASTM,6P

Package Content

1xquadcopter
1xTransmitter
4xMain propeller
1xUSB connection Cable

1xCharger (for UFO)
2xLi-po Batteries
