

## Hoogtepunten:

Automatische obstakel vermijden functie

Met een hoge hold-modus kan hoogte te stellen.

Headless mode, 360 roll.

Een sleutel tot de functie terugkeren maakt het eenvoudig om de weg naar huis te vinden.

6-as gyro quad-rotorcraft vlucht, sterke stabiliteit, kan gemakkelijk uit te voeren verschillende vliegbewegingen, sterkere weerstand tegen wind, gemakkelijker te controleren.

De quadcopter kan zowel binnen als outdoor. Including 4CH digitale proportionele RC systeem vliegen.

Oplaadbare high performance batterij.

Het wordt geleverd met drie modulaire ingebouwde functies interfaces:-1. rear gemonteerde

batterijmodules; 2. voor de camera uitbreidingsmodule; 3. onderkant van de drone bumper module

Via een insteekverbinding met de modules en dar, handiger dan het harnas, gemakkelijker te bedienen te verbinden.

Real-Time Frequency: 5.8GHz transmissie

## bestek

Type: Quadcopter

Model: PANTONMA K80

Kenmerken: Air Press Altitude Hold, Radio Control

Motor Type: Brushed Motor

Ingebouwde Gyro: 6 Axis Gyro

Materiaal: Plastic

Kit Types: RTF

Niveau: Intermediate niveau

Leeftijd: Boven 14 jaar oud

Afstandsbediening: 2,4 GHz draadloze afstandsbediening

Kanaal: 4-kanalen

Mode: Mode 2 (Left Hand Throttle)

Gedetailleerde Controle Afstand: 100m

Zender Vermogen: Built-in oplaadbare batterij

Model Vermogen: 1 x Lithium batterij (inbegrepen)

Batterij: 3.7V 650 mAh

Flying Tijd: 6.5-7mins

Het laden Tijd (h): ongeveer 90 minuten

Gewicht van het product: 0,837 kg

Pakket gewicht: 0,837 kg

Grootte van het product (L x B x H): 38,00 x 38,00 x 6,00 cm

grootte van de verpakking (L x B x H): 34,00 x 32,30 x 11,50 cm

Functies: 5.8G FPV realtime transmission Air Press Altitude Hold, vooruit / achteruit, Headless Mode, One Key automatische terugkeer, One Key Landing, One Key Opstijgen, Roll, versnellen, Sla links / rechts, omhoog / omlaag

## Pakketinhoud

1 x [5.8G Quadcopter](#),

1 x zender,

4 x Reserve Propeller,

4 x Propeller Guard,

1 x schroevendraaier,

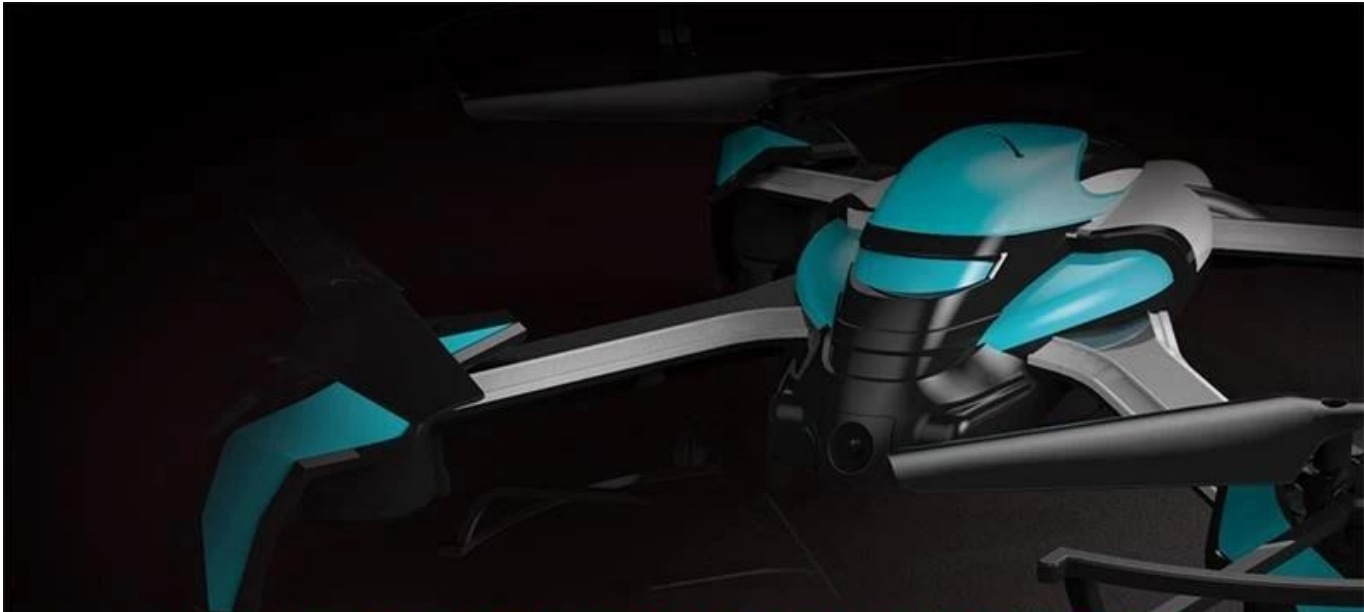

1 x Battery Module,

1 x USB-kabel,

1 x Engels Manual

Neither the phone nor the camera module in the picture is included.

## KAIDENG PANTONMA K80 RC QUADCOPTER

It does not only have an impressive high-tech appearance, but also facilitates the maintenance with its special plug-in modular design.

6 Axis  
Gyroscope

360°  
3D Eversion

Headless Mode

Air Press  
Altitude Hold

4CH 2.4GHz  
Radio Transmitter

One Press  
Automatic Return

### COLORS

## PLUG-IN MODULAR DESIGN

### CAMERA MODULE

The module provides you with great FPV.

### BATTERY MODULE

The battery has a capacity of 650mAh, makes your flight last for 7 minutes.

### MODULE

It protects your drone from crashing into other things.

Note: except battery module, any other add-on is not included.

## HOW IT WORKS

Press the button to mount / dismount the battery module.

Press the button to mount / dismount the camera module.

CAMERA UP

CAMERA DOWN

The angle of the camera lens can be adjusted via the transmitter.

## OBSTACLE AVOIDANCE MODULE

Omnidirectional obstacle avoidance sensor

If there is any obstacle within 50 - 80cm, the drone will stop approaching and fly back.

Therefore, the obstacle avoidance module serves as a protection for both the drone itself and the people nearby.

## CLEVER CUSTOMIZATION METHOD

Have an awesome flight by complementing your drone with some add-on accessories, such as camera module, obstacle avoidance module, FPV monitor and even VR glasses.

Note: the VR glasses are not included.

## USER-FRIENDLY CONTROL

Many special functions can be activated by the transmitter, including one key to return / land / take off, headless mode and etc.

## PRODUCT DETAILS

### 1. Flashing LED

Soft flashing LED for better visibility

### 2. Reinforced Structure

Robust and flexible central body with reinforced arms

### 3. Flexible Propellers

They lock automatically in the event of collision

### 4. Modular Design

It greatly increases the ease of maintenance

## FEATURES

### HIGH PERFORMANCE ROTOR

Enforced with the new carbon fiber compound material, the 13.5 inch quick release rotors work with amazing stability.

### EASY TO REPLACE MOTOR

You just need to take off 3 screws to replace a motor.

### SHOCKPROOF RUBBER GEAR PAD

The landing pads help to reduce the shock when the drone touches the ground.

### AESTHETIC PUSH BUTTON

It looks much cooler than common switches, and goes well with the overall appearance of the quadcopter.
