

Highlights

This is the Airsoft 1/16 German Panther G class smoking RC battle tank. This RC Airsoft Tank comes with a built-in smoke generator and produces an analog electric motor start-up sound, engine sound, machine gun sound, and the sound of shells. This is nearly two feet long! This tank is a multi-faceted driving fully functional (and it's fast!), 360 degree rotating turret and barrel raised and lowered. Concerning this tank best part is that it's a remote air gun tank. We have an awesome range of over 80 feet, which can accommodate 40, its strength plastic 6 mm BB, and it even has a powerful next red warning light to illuminate the barrel before it triggers.

Prominent German Panther G class features:

Maximum side turning angel turret (left / right) to about 320 degrees

Maximum vertical turning angel of gun (up / down) to about 30 degrees

Maximum climbing gradient (changeable on different road) approximately 35 degrees

Function: forward high-speed forward, backward, high speed backward and spin

Free to change the frequency any frequency, as long as you like, multi-player and tanks are allowed

Full scale R / C function analog motor startup chime

Smoking reality function supper chassis (Please read the manual!)

Realistic suspension system

High-strength metal wheel and crawler

Airsoft BB bullet shooting

Adjustable engine sound, machine guns, artillery sound effect simulate motion

Technical Specifications

* Product Dimensions: 55.5 x 20.5 x19 cm

* Tank Weight (with battery): 3.74 kg

* Shooting 6 mm BB shells

*maximum. Shooting range: approx. 25 meters

* Maximum speed of 15 mph

* Smoking: Yes

* Electric engine sound: Yes

Package Contents

An RTR remote Airsoft Tank

An FM radio (available in three variable frequency band 9)

A rechargeable battery

A charger

An aerosol (for the production of smoke)
