

Highlights

This copter can be controlled with Wltoys V222 / V252 / V262 transmitters (include video recording & picture functions)

The 2.4G transmitter can also control Wltoys quadcopters

Build-in digital video camera, 640 x 480 resolution

The 6-axis system allows the quad to be manually launched

6-axis gyro quad-rotorcraft flight, strong stability, can easily implement various flight movements, stronger wind resistance, easier to control

4G transmitter has speed adjustable function

4G technology for anti-interference

Automatic on frequency, one to one channel, can compete with multiplayer, enjoy more fun

Super mini size, the smallest volume and the lightest weight, beyond imagination stability and operability

High wind resistance for wind power is less than 4 grade

The quadcopter can fly both indoor and outdoor, include 4CH digital proportional RC system

5 highlight colorful LED lights, indicate direction in the night, also can increase the visual perception of flight

4 feet stable landing, speed and smooth, won't hurt wings and strengthen the airflow

Rechargeable

7V high performance battery and can be charged by computer, more convenient

Have lots of functions, such as video / photograph / raise & down / forwards & backwards / left & right turning / left & right flying / hovering / 360-degree rotating

Specifications

Main Rotor Diameter:2.36" / 6cm

Gyro:6 Axis Gyroscope

Speed Control:Integrated

Required Radio:4 Channel

Frequency:2.4GHz

Flight Time:Approx. 5-8 minutes

Charging Time:55-60 minutes

Quadcopter Battery:Rechargeable 3.7V 380mAh Lithium Battery

Transmitter Battery:4 x 1.5V AA Batteries (Not Included)

Control Distance:50 meters

Resolution:640 x 480 px

Body Material:ABS Plastic

Color:Red

Dimensions:(3.94 x 3.94 x 0.98)" / (10 x 10 x 2.5)cm (L x W x H)

G.W/N.W KGS: 19.5/16

Suitable for:Ages 14+

Package Content

1 x 6 Axis Quadcopter

1 x 2.4G Transmitter

1 x USB Charging Cable

4 x Spare Blade

1 x User Manual
