

Highlights:

Powerful brushless motors;
Optional camera;
Headless flight mode;
One key return to home;
High capacity flight battery;
Bright LED light for night flights;
High landing skids;
Up to 300 meter flight range;
About 15-20 minutes flight autonomy.

Specifications

Type: [Quadcopter](#)

Features: Radio Control

Motor Type: Brushless Motor

Functions: Up/Down, Forward/Backward, Left/Right, Leftward flight/Rightward flight, 360° flips & rolls, Altitude Hold, Brushless

Built-in Gyro: 6 Axis Gyro

Night Flight: Yes

Age: Above 14 years old

Remote Control: 2.4GHz Remote Control

Channel: 4-Channels

Detailed Control Distance: 200m

Transmitter Power: 4 x AA battery (not included)

Model Power: Built-in rechargeable battery

Battery: 7.4V 2600mAh

Flying Time: 15-20mins

Charging Time (h): About 65mins

Package Content

1*2.4G remote controller;
1*2600 mAh Li-Po battery;
1* 1set spare propellers;
1*1 set of propeller protectors;
1*Balance battery charger;
1*Screwdriver;
1*CG035 user manual.
