

Highlights

Low voltage alarm function.LCD view
Professional large torsion propeller.
Have left right trim switch, enhanced stability.
7.4V 1500mah lithium battery, the speed about 25KM/H.
Adopts motor cooling system, extending the service life of motor.
The default mode is left hand, you can change it to right hand.
While sailing ship capsizing can control the boat flip, ensure correct voyage.
Adopts 390 strong magneto drive system provides strong and stable performance.
Uses the advanced 2.4G technology of frequency connection, further remote distance.

Specifications

Material: ABS
Color: Red and blue optional
Control mode: Mode2 (left hand throttle)
Remote control frequency: 2.4G
Speed up to: About 25KM/H
Controlling distance: About 150m
Battery for boat: 7.4V 1500mah lithium battery
Charging time: 100min
Working time: 8min
Charging: USB cable
Transmitter battery: 4 * AA battery (not included)
Function: Forward, backward, turn left, turn right, 180°Flip
Battery size: 62 * 34 * 17mm
Boat size: 43.7*11.7*12.2cm
Weight: 483g

Package Content

1 * [RC Boat](#)
1 * Transmitter (mode2)
1 * 7.4V 1500mah lithium battery
1 * Boat Rack Unit
1 * Spare Propeller
1 * Tool set
1 * English manual
1 * Charge cable
