

## Highlights

With brushless motor MT1806 1800kv

More power motor make it has the crazy speed.

Added the ESC with built-in automatic lock protection and high temperature lock protection.

7.4V 1800mAh high capacity battery

Unique package design for battery provides extra assurance for battery safety.

Has a Alarm design, when it fail down or lose, will get alarm.

2.4GHz technology adopted for anti-interference.

Allow to fly up to 20 pcs at the same time interference free with each other.

With headless flight mode and a key to return function, Fly up/down, turn left/right, forward/backward and hover 360-degree flip flight

OSD date to show the battery, voltage, flying situation

Flashing light and throw-to-fly Indoor and outdoor flying

## Specifications

Type: Quadcopter

Features: Radio Control

Motor Type: Brushless Motor

Functions: UUp/down, left/right, forward /backward, Leftward flight/Rightward flight, Light, Flips&rolls

Built-in Gyro: 6 Axis Gyro

Night Flight: Yes

Age: Above 14 years old

Remote Control: 2.4GHz Remote Control

Channel: 4-Channels

Detailed Control Distance: 300-500m

Transmitter Power: 4 x AA battery(not included)

Model Power: Built-in rechargeable battery

Battery: 7.4V 1800mAh

Flying Time: 18mins

## Package Content

1\*remote controller;

1\*1800 mAh Li-Po battery;

1\* 1set spare propellers;

4\* 1set blades;

1\*Screwdriver;

1\* blades installer

1\*Sports camera bracket

1\* user manual.

(C4000 1080P sport camera not included)

Camera Mount ( work with sport camera such as GoPro, SJ4000, Xiaomi and so on) included

Brushless  
motor  
(1816 500KV)

Independent  
ESC  
(low and high  
temperature protection)

Bidirectional 2.4G  
transmission  
(works with control box + video  
transmitter controller system)

Diagonal: 310mm
