

Highlights:

Cool design with a 1MP camera, this quadcopter can be taken everywhere you want. You can record photos and videos during every happy moment

With attractive height hold function, the quadcopter can hover at a fixed height. It is a great function for aerial photography

You can control the quadcopter by your phone via the customized APP

6 axis gyro fly system provides a more sensitive gyro's regulating, more stable and flexible flight

With functions of one key automatic taking off and landing, you can control your airplane to start and end a trip conveniently and safely

With attractive headless mode: the direction of the drone depends on the user rather than the drone itself

One key automatic return function makes it easier for beginners to control

2.4G frequency: the quadcopter features 2.4G technology allowing you to fly more than one sky drone at a time

Great drone: it is incredibly durable and is suitable for both indoor and outdoor flight. The drone comes with the ergonomically designed remote control as well as a USB cable to charge your drone

New Function:

With high density air pressure sensor which can precisely hold the height.

One-key taking off/landing makes the operation more convenient and it is very suitable for novice operation.

The WIFI real-time images transmission system offers you much more convenient aerial experience.(Only SYMA X5UW)

Controlled by SYMA APP and planned flight track.(Only SYMA X5UW)

Specifications

Brand: Syma

Type: Quadcopter

Model: X5UW

Features: Radio Control

Built-in Gyro: 6 Axis Gyro

Material: Plastic

Kit Types: RTF

Color: White

Frequency: 2.4G

Channel: 4CH 6 Axis Gyro

Features: Barometer Set Height,WiFi FPV

Video Time /Photos: About 30min video or 800 pictures

Camera Pixels: 1MP

Main Rotor Diameter: 14 CM

Level: Intermediate Level

Age: Above 14 years old

Remote Control: WiFi Remote Control

Channel: 4-Channels

Mode: Mode 2 (Left Hand Throttle)

Detailed Control Distance: 50m

Transmitter Power: Built-in rechargeable battery

Model Power: 1 x Lithium battery(included)

Battery:3.7V 500mAh

Flying Time: 7mins

Charging Time (h): about 130 minutes

Product size (L x W x H): 32 x32 x 7 cm

Package size (L x W x H): 42.5 x 23.5 x 10.5cm

Functions: 3D rollover,Automatic Return,Camera,Emergency Landing,Forward/backward,FPV,Headless

Mode,One Key Automatic Return,One Key Landing,One Key Taking Off,Sideward flight,Turn left/right,Up/down,WiFi Connection

Package Content

- 1 * Wifi [Syma Quadcopter](#)
- 1 * Transmitter
- 1 * Camera
- 1 * 3.7V 500mAh Li-po Battery
- 4 * Spare Blades
- 4 * Protection frames
- 1 * Card Reader
- 1 * USB Cable
- 1 * Screwdriver
- 1 * Instruction Manual
