Highlights

1.With professional action like 180-degree left and tight sideward flight, 360-degree four directions rollover, makes your quadcopter cool.

2.With one key automatic return function, you can call back your quadcopter quickly and safely.

3.Headless mode can completely solve pilot "loss of orientation" problems.

4.2.4GHz transmitter power ensures the strong anti-jamming capability.

5.6 axis gyro fly system ensures a more sensitive of gyro's regulating, more stable and flexible flight.

6.Cool appearance and smooth design, thus, it can be a great collection for your own and a perfect gift for kid or RC toy fan.
