

Highlights

With brushless motor and 3D propellers easily make a variety of stunts. High-speed flight can reach 20m/s. 5.8G FPV 720P 140 ° wide-angle camera, it can provide you clearer FPV.

With 6CH LCD transmitter, built-in 10 flight module, compatible with helicopter, fixed-wing aircraft and other quadcopter.

No landing gear design, make the product more suitable for filming and through flight.

A key to shoot, built-in SD card storage, easy to shoot and share the fun.

With highlight LED lights, make it more dazzle beautiful and colorful night light.

Battery sealed design, with charging socket, longer battery life.

2.4G communication protocol, compatible FUTABA S-FHSS communication protocol.

Functions: Up / Down / Forward / Backward / Side Flying / LED / 3D Flips / 5.8G FPV / 720P Camera

Specially: X252 with X7 Transmitter

Specifications

Item name: RC Quadcopter

Material: High-strength engineering composite materials

Frequency: 2.4G

Brushless motor: 1804 * 4

Flight time: about 12 mins

Charging time: about 60-80 mins

Control distance: about 300m

Transmission distance: more than 250m

Quadcopter Battery: 7.4V 950mAh 20C

Transmitter Battery: 6 x 1.5V AA Battery (Not Included)

Wheelbase: 242mm

Flight weight: 220g

Package Content

1 x [FPV RC Quadcopter](#)

1 x X7 Transmitter

1 x LCD Monitor

1 x 7.4V 950mAh 20C Lipo Battery

4 x Propeller

4 x 3D Propeller

1 x Charger

1 x Adapter

1 x Removing the propeller wrench

1 x User Manua
