Headless model completely solves pilot loss-of-orientation problems.

Stay firmly in the set height under the attitude hold flight mode.

2.0MP camera, allowing you to see the world in a different view.

Specifications

Item type: quadcopter

Color: Green

Material: ABS

Camera: 2.0MP

Gyroscope: Six axis

Channels: 4 Channels

Remote controller: 2.4GHz mode 2

Real-time Transmission: wifi FPV

Functions:Up/Down,Forward/Backward ,Left/Right,Hovering,Light,360°flips&rolls,Auto-return,Wifi real-time transmission,Headless mode

Transmitter battery: 4 * 1.5V AA battery (not included)

Remote distance: about 150m

Suitable ages: Above 14 Years old

Charging time: about 60 minutes

Working time: 6-8 minutes

Quadcopter battery: 3.7V 700mAh li-po battery

Quadcopter size: 40*40*10cm

Item weight: 118g

Package Content

1 * [Wifi RC Quadcopter](#) with 2.0MP Camera

1 * Transmitter (mode 2)

1 * Bracket for cellphone

1 * 3.7V 700mAh Lipo Battery

1 * USB Charger Cable

2 * Pair of Spared Propeller

1 * Landing Gear

1 * Screwdriver

1 * Screw set

1 * English User Manual

1331W 4CH Wifi FPV 0.3MP Camera

360° Eversion

360° eversion: a key 360° roll, continuous roll for perfect action and wonderful performance.

Aircraft weight: 118g

- 1 * Transmitter (mode 2)
- 1 * Bracket for cellphone
- 1 * 3.7V 700mAh Lipo Battery
- 1 * USB Charger Cable
- 2 * Pair of Spared Propeller
- 1 * Landing Gear
- 1 * Screwdriver
- 1 * Screw set
- 1 * English User Manual

P.S. The phone is not in package.
