NIGHT VISION + ADJUSTABLE CAMERA

#### ROVOSPY QUICK START GUIDE

1. Download the Rovospy App (available from the "Rovospy" App Store) to your Android or iOS device. Install the App on your device.
2. While Rovospy is powered on, turn on the "Night Vision" LED (located on the top of the robot) to the "ON" position. This allows for high-contrast, black and white night vision. The "Night Vision" LED is located on the top of the robot.
3. Open the Rovospy App. The driving controls and live video will appear on your device's screen.  
**You are now ready for ALL-TERRAIN SURVEILLANCE**
